

## StudentScholarshipSearch.com Reveals the Top 5 Scholarship Application Mistakes in Infographic

***New infographic warns students of the mistakes they should watch out for when filing their school, federal and private organization scholarship applications***

**Quincy, MA (March 7, 2012)**—StudentScholarshipSearch.com, a division of the Edvisors online education company, recently released an infographic that depicts the top 5 application mistakes that students make when applying for college scholarships. The infographic lays out the 5 tips, which include *not following instructions* and *not paying attention to deadlines*, and provides tips for students on how to avoid those mistakes.

Scholarship awards can be very competitive and many times it only takes one small mistake for an application to be rejected. StudentScholarshipSearch.com aims not only to help students find scholarships, but also to give them the tools they need to successfully apply for and obtain scholarship money. This infographic serves as a visual reminder for students going through the scholarship application process.

In addition to StudentScholarshipSearch, Edvisors runs a host of other websites that help students learn about the college admissions process, student loans and online education programs. "We want to make it easier for people to navigate the higher education process," said Joe Cronin, CEO. "This infographic is just one of the many great resources we provide for students, parents, and education professionals."
